FOREWORD

In presenting Volume VI of "THE GOLDEN HORSESHOE" we have attempted to depict scenes of life "Around the School in 180 Days."

It would be impossible to recall all the happenings of a school year, but we sincerely hope we have recorded many that will bring happy memories to you.

DEDICATION

We, the Senior Class of 1958, take pride in dedicating Volume VI of "The Golden Horseshoe" to Coach Paul Mathew Sizemore. His unlimited effort to develop athletics in our school has endeared him to us and has added that intangible spirit which builds winning teams and good school sportsmanship.

Florida Calls Teachers and Students Make Use Of Vacation

School closed on December 20 for the Christmas holiday. From that day until January 2 when school reopened the students and faculty of OCHS took full advantage of their vacations.

Students spent the twelve day holiday in various ways such as working, visiting friends and relatives and sleeping late.

Many churches in the county presented Christmas programs in the OCHS gymnasium.

The Piedmont Players will present their second major production, "Goodbye My Fancy," on January 17.

Burrus Receives D.A.R. Award

Bessie May Burrus, OCHS senior, is this year's recipient of the DAR Good Citizenship Award. The decision was made on Tuesday, January 7. The senior class chose three girls by popular vote. These names were presented to the faculty for the final vote. The announcement of the winner was made to the seniors on January 8. The Golden Horseshoe Chapter of the Daughters of the American Revolution presents this award each year to an OCHS senior girl. The recipient is chosen for outstanding qualities or achievement in dependability, community spirit and patriotism.

Recipient Plans Her Career In Science

This year's DAR Good Citizen is a past president of Le Cercle Francais and a member of F. H. A. Bessie May is Business Manager of "Hoofprints" and is an honor student. She is a member of Pumpkin Baptist Church and the Pumpkin Grange. After graduation in June, Bessie plans to attend either research, more money university or Westhampton. She expects to study for science.

Eighth Graders Elect Edwards President For '57-58 Session

During their regular club meeting the eighth grade held their election of officers. Betty Tipton presided as acting chairman. After the two persons running for each office gave campaign speeches the the students voted by secret ballot. Later in the day the results were announced over the public address system. The officers elected for this school year are Billy Edwards, president; Jean Sims, vice-president; Charlotte Quann, secretary; Cary Braham, treasurer; and Brenda Heilig, reporter.

ENGINEERING SKILLS. . . AND THE COLD WAR

Our strength, both industrially and militarily depends upon the engineering and mechanical skills of the men and women in American industry. Our "cold war" against Russia is a war of industrial might, as well as a war of preparedness. We have lost ground to the iron curtain countries in foreign trade. Through expanded markets, Russia has received the dollars and the goods necessary to increase her military potential. On the other hand, America's prosperity has not been expanded as it could have been - because of trade advantages lost to the Russians.

On the military front, our losses have been even more spectacular. Russia was the first nation to launch an earth satellite, with the immense propaganda advantage gained. Russia has set the aggressive pace in the development of intermediate and long range guided missiles - the greatest and most dangerous instruments of war.

Why have Russia's gains been so spectacular? It's because Russia has trained the scientists needed for her productive and military effort. The U. S. S. R. is training more scientists, engineers and mechanical specialists today than the rest of the world combined.

Unless we have the technical men in our industry...in the military forces...in research - we stand to lose not only our prosperity - but perhaps even our freedom and lives as well.

It's a grave situation, but you can help to do something about it. First, you can train yourself in the necessary mechanical, scientific and technical subjects. Second, you can remain in school as long as possible, realizing that a high school education is the minimum requirement in specialized industrial work.

A technical career can offer you more than rewarding, gratifying work - it will help you pave the way to a more secure, more productive nation.
